## **Shinya Nakano (5th):**

I'm satisfied with this race – I got a good start and quickly moved up from fifteenth to sixth. I followed Stoner for a while and tried to pass him in several places but it wasn't easy because he was so fast and he was braking very deep in the corners. Anyway, I soon realised that he was starting to have some issues, it looked like the front end of his bike, so I was able to make the pass and then hang on to fifth place until the end.
