Shinya Nakano (7th):

I'm happy with seventh place today because it was important for me to get to the finish line, which is why I pushed hard but without taking too many risks. Considering that I started the race from fifteenth I had to be very focused to make up positions at the start, taking another couple of riders over the opening laps before catching Edwards, although it was difficult to get past him. We had gone for a hard tyre with an eye on the later stages of the race and I think we made a good choice. I'm satisfied with this season because over the final few races in particular we've had some good races and despite a couple of ups and downs I'm happy with how it's all gone. I want to thank Team Gresini and my fans for their support and I will go away with great memories of the people I have had the pleasure to work with this season.

Fausto Gresini - Team Manager:

This is the end of what hasn't been an easy season for us but I'm happy with the results today. I want to say a huge 'thank you' to Shinya, who has worked with true dedication with us, and we wish him all the best for his future career.
